Directors' Report

30 June 2019

The Directors of Rural Funds Management Limited (RFM), the Responsible Entity of RFM Almond Fund 2006 (AF06 or the Scheme) present their report on the Scheme for the financial year ended 30 June 2019.

Directors

The following persons held office as Directors of the Responsible Entity during the year and up to the date of this report:

Guy Paynter	Non-Executive Chairman
David Bryant	Managing Director
Michael Carroll	Non-Executive Director
Julian Widdup	Non-Executive Director

Principal activities and significant changes in nature of activities

The principal activity of the Scheme during the year was the commercial growing of almonds to be sold for processing and consumption in Australia and internationally.

AF06 was established in 2006 to provide Growers with an opportunity to invest and participate in the business of growing and selling almonds. Growers are licensed to operate an almond growing business for 20 years from June 2006, after which the agricultural produce from the trees reverts to the lessor. From 2006 to 2026 the Growers have entered into a Farm Management Agreement (FMA) with RFM to conduct the growing and harvesting of the almonds.

As the Scheme manages the cash flows associated with the above and does not operate a business in its own right, AF06 does not have net assets. The respective rights and obligations under the FMA rest with the Growers.

In accordance with the Constitution of the Scheme, when defaulting Growers have their Scheme interests cancelled, ownership of the Groves passes to the Responsible Entity, RFM. In the absence of payment by a Grower, RFM meets all costs associated with the management of the almond Groves. In addition, RFM has met the annual cost of Groves that were not taken up by Growers. Including these Groves, RFM owns 291 Groves of the 1088 originally comprising AF06. The operating results discussed below and in the financial statements include the results attributable to the Growers in the Scheme and do not include the Groves owned by RFM.

During the twelve months to 30 June 2019, 14 additional Groves were cancelled (2018: 4). An opportunity to purchase the 14 cancelled Groves were offered to the existing AF06 Growers, as well as Growers in RFM Almond Fund 2007 and RFM Almond Fund 2008. The Growers with the highest bid acquired them.

Further information on Scheme operations is detailed in note 1 on page 13.

Each almond grove operated represents an area of 0.25 hectares (2018: 0.25 hectares). As at 30 June 2019, the Scheme had 162 Growers (2018: 167) with a total of 797 groves (2018: 797) representing 199.25 hectares (2018: 199.25).

Operating results

The net profit attributable to Growers for the year ended 30 June 2019 amounted to nil (2018: nil).

Harvest proceeds are received in the financial year following harvest. Therefore, the 2019 harvest proceeds will be received in the 2020 financial year. The proceeds of the 2018 harvest, the Scheme's tenth harvest, were available to fund the 2019 financial year operating costs. The table below gives the details of the 2019 harvest with a comparison to 2018.

	Tonnes per grove	Tonnes per hectare
2019 estimated harvest (per original PDS)	0.88	3.50
2019 actual harvest	0.79	3.17
2018 estimated harvest (per original PDS)	0.88	3.50
2018 actual harvest	0.65	2.61

RFM Almond Fund 2006

ARSN 117 859 391

Directors' Report

30 June 2019

Operating results (continued)

The 2019 actual harvest yield was lower than the original estimate due to excessive heat during the season and the frost damage from one frost event early in the season. The almond price has increased with a current price forecast of \$8.00 per kilogram.

Almondco Australia Limited ("Almondco"), the company responsible for processing and marketing the Scheme's almonds, sells the crop progressively over twelve months following harvest and thus the 2019 harvest final pricing will not be known until 30 June 2020.

An invoice was issued to the Growers in September 2018 for the combined 2017 financial year and 2018 financial year shortfall. The details of this invoice are shown below:

	Sub-total	GST	Total
	\$	\$	\$
Income			
Harvest proceeds from 2017 crop	6,558.10	GST Free	6,558.10
Dividend & interest received	2.41	GST Free	2.41
Expenses			
Processing cost	(388.45)	GST Free	(388.45)
Interest cost	(66.86)	GST Free	(66.86)
Management fee	(221.42)	(22.14)	(243.56)
Licence fee	(1,508.09)	(150.81)	(1,658.90)
Operating cost	(3,921.40)	(392.14)	(4,313.54)
Subtotal	454.29	(565.09)	(110.80)
Rebate			
Interest cost - 100%	66.86	GST Free	66.86
Management fee - 50%	110.71	11.07	121.78
Total FY18 net result	631.86	(554.02)	77.84
FY17 carried forward shortfall	(795.36)	(79.53)	(874.89)
Total invoice per Grove	(163.50)	(633.55)	(797.05)

RFM provided a rebate of 50% for the 2018 financial year management fee.

Growers who paid their 2017 financial year shortfall in full received a distribution of \$77.84 per grove.

Financial position

At 30 June 2019, the Scheme held assets with a total value of \$5,256,743 (2018: \$3,933,320) on behalf of the Growers.

Distributions and performance

A distribution of \$1,868 was paid during the 2019 financial year (2018: nil).

At balance date the Scheme had amounts held from 2018 harvest proceeds to cover Growers' 2019 operating costs, management fees and licence fees. As 2019 operating costs exceeded 2018 harvest revenue, an invoice was issued to Growers for the 2019 financial year operating shortfall.

Interests in the Scheme

At the date of this report no associates or Directors of the Responsible Entity hold an interest in the Scheme.

RFM Almond Fund 2006

ARSN 117 859 391

Directors' Report

30 June 2019

Fees paid to the Responsible Entity

In accordance with the FMA, management fees paid to the Responsible Entity for the financial year ended 30 June 2019 were \$198,975 (2018: \$97,061) inclusive of GST.

Significant changes in state of affairs

In the opinion of the Directors, there were no significant changes in the state of affairs of the Scheme during the year.

Matters subsequent to the end of the financial year

Following the year end, based on changes in the market, the latest estimated sales price of almonds as provided by Almondco is \$8.10/kg. The price increase has not been taken to account as the movement represents the fair value movement in the market value of almonds since 30 June 2019. The final sales proceeds are subject to change based on market conditions throughout the next year and will not be known until 30 June 2020.

Meetings for the AF06, RFM Almond Fund 2007 and RFM Almond Fund 2008 (Schemes) were held on 28 August 2019 to consider the proposed merger of the Schemes as detailed in the Notice of Meeting dated 25 July 2019. During the meeting held on 28 August 2019, the proposals were passed by Growers in each of the Schemes, and the merged entity was renamed the RFM Almond Fund (RAF).

An invoice was issued to Growers on 30 August 2019 for the 2019 financial year shortfall and the 2020 financial year pre-merger shortfall. As a result of the merger, no payment was deemed required for this invoice and the liability was transferred to and funded by RAF.

No other matter or circumstance has arisen since the end of the year that has significantly affected or could significantly affect the operations of the Scheme, the results of those operations or the state of affairs of the Scheme in future financial years.

Likely developments and expected results of operations

Maximising grower returns by developing crop yield potential and improving efficiency in operating RAF continue to be the main focus.

Environmental regulation

The operations of the Scheme are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

There have been no known breaches of any other environmental requirements applicable to the Scheme.

Indemnity of Responsible Entity and Custodian

In accordance with the constitution, the RFM Almond Fund 2006 indemnifies the Directors, Company Secretaries and all other officers of the Responsible Entity and Custodian when acting in those capacities, against costs and expenses incurred in defending certain proceedings.

Directors' Report

30 June 2019

Information on Directors of the Responsible Entity

Guy Paynter

Qualifications

Experience

Non-Executive Chairman

Bachelor of Laws from The University of Melbourne

Guy Paynter is a former director of broking firm JB Were and brings to RFM more than 30 years of experience in corporate finance. Guy is a former member of the Australian Securities Exchange (ASX) and a former associate of the Securities Institute of Australia (now known as the Financial Services Institute of Australasia). Guy's agricultural interests include cattle breeding in the Upper Hunter region in New South Wales.

Special responsibilities

Directorships currently held in listed entities and during the three years prior to the current year

Member of Audit Committee and Remuneration Committee

Rural Funds Group, RFM Poultry

David Bryant

Qualifications

Experience

Managing Director

Diploma of Financial Planning from the Royal Melbourne Institute of Technology and a Masters of Agribusiness from The University of Melbourne.

David Bryant established RFM in February 1997 and since that time has led the team that is responsible for the acquisition of large-scale agricultural property assets and associated water entitlements. As at 30 June 2019, RFM manages over \$1.2 billion of agricultural assets. On a day-to-day level, David is responsible for maintaining key commercial relationships and sourcing new business opportunities.

Special responsibilities

Directorships currently held in listed entities and during the three years prior to the current year

Managing Director

Rural Funds Group, RFM Poultry

Michael Carroll

Qualifications

Experience

Non-Executive Director

Bachelor of Agricultural Science from La Trobe University and a Master of Business Administration from The University of Melbourne's Melbourne Business School. Michael has completed the Advanced Management Program at Harvard Business School, Boston, and is a Fellow of the Australian Institute of Company Directors.

Michael Carroll serves a range of food and agricultural businesses in a board and advisory capacity. Michael is on the boards of Elders Limited, Select Harvests Limited, Paraway Pastoral Company and Viridis Agriculture Pty Limited. Michael has senior executive experience in a range of companies, including establishing and leading the National Australia Bank (NAB) Agribusiness division.

Special responsibilities

Directorships currently held in listed entities and during the three years prior to the current year

Chairman of Audit Committee and Remuneration Committee

Michael is on the Board of Elders Limited, RFM Poultry, Rural Funds Group, Select Harvests Limited and was a director at Tassal Group Limited.

Information on Directors of the Responsible Entity (continued)

Julian Widdup	Non-Executive Director
Qualifications	Bachelor of Economics from the Australian National University. Julian is a Fellow of the Institute of Actuaries of Australia and a Fellow of the Australian Institute of Company Directors.
Experience	Julian brings extensive experience to the RFM board having previously served as a director of Palisade Investment Partners, Darwin International Airport, Alice Springs Airport, NZ timberland company Taumata Plantations Limited, Regional Livestock Exchange Investment Company, Merredin Energy power generation company, Victorian AgriBioscience Research Facility, Casey Hospital in Melbourne and Mater Hospital in Newcastle.
Special responsibilities	Member of Audit Committee and Remuneration Committee
Directorships currently held in listed entities and during the three years prior to the current year	Rural Funds Group, RFM Poultry

Company secretaries of the Responsible Entity

Stuart Waight and Emma Spear are RFM's joint company secretaries. Stuart joined RFM in 2003 and is a Chartered Accountant. Emma joined RFM in 2008 and is a CPA.

Meetings of Directors of the Responsible Entity

During the financial year 13 meetings of Directors (including committees of Directors) were held. Attendances by each Director during the year were as follows:

Directors meetings

	No. eligible to attend	No. attended
Guy Paynter	13	12
David Bryant	12	12
Michael Carroll	13	13
Julian Widdup	13	13

Non-audit services

During the year ended 30 June 2019 fees of \$4,557 (2018: \$3,234) were paid or payable to PricewaterhouseCoopers for compliance audit services provided.

ARSN 117 859 391

Notes to the Financial Statements

30 June 2019

1 General information

These financial statements cover the RFM Almond Fund 2006 (AF06 or the Scheme) as an individual entity. The Scheme is a registered managed investment scheme constituted in 2006. The Responsible Entity of the Scheme, Rural Funds Management Limited (RFM), is incorporated and domiciled in Australia. The registered office of the Responsible Entity is Level 2, 2 King Street, Deakin, ACT 2600.

The financial statements were authorised for issue by the Directors of the Responsible Entity on 24 September 2019. The Directors of the Responsible Entity have the power to amend and reissue the financial statements.

The Scheme does not operate a business in its own right. The Scheme acts as a conduit for the receipt of income from the sale of almond produce, and the distribution of the same to Growers. It also acts as a conduit for the receipt of monies from Growers and where applicable the distribution of those monies in accordance with the Scheme's constituent documents. Growers are responsible for all operating costs, licence and management fees, including an interest component to fund the operation. Any profits made under the Scheme are profits made by Growers.

Growers are entitled to receive net cash flows arising under the Scheme, being revenue from almond sales less the Scheme costs. When Scheme costs exceed revenue, the Growers are required to fund the shortfall. When revenue exceeds costs, the surplus is distributed to Growers.

As the Scheme manages the cash flows associated with the above and does not operate a business in its own right, the Scheme does not have net assets. The respective rights and obligations under the farm management agreements (FMAs) rest with the Growers.

Obligations of the Responsible Entity

The Responsible Entity, RFM, has obligations to operate the Scheme and perform functions conferred on it by the relevant Scheme constitution.

In addition, RFM has separately entered into individual contractual arrangements with individual members of the Scheme under which RFM has other obligations directly with those members.

This financial report relates only to the Scheme and therefore only considers the obligations of RFM to the Scheme pursuant to the constitution and the sublease. Other than as noted below, the financial report does not consider obligations of RFM in respect of obligations to members of the Scheme pursuant to the separate contractual relationships between RFM and those members.

Other obligations to members of the Scheme

In addition to its responsibilities as the Responsible Entity, RFM has entered into individual contractual arrangements with members of the Scheme under which RFM is obliged to incur various expenditures and provide various services. The members either have paid or will make payments to RFM to perform these obligations. The costs incurred by RFM in discharging its contractual obligations with individual members are specific financial obligations of RFM and are reimbursable to RFM by members. They can be recoverable from the member's proceeds of sale and are not financial obligations of the Scheme. Therefore, these costs are not directly relevant to this financial report.

Notwithstanding this, members of the Scheme should understand that in addition to RFM meeting its obligations to the Scheme under the Scheme constitutions, RFM also needs to meet its contractual obligations to members for services pursuant to the individual agreements entered into with individual members of the Scheme. These obligations include incurring maintenance expenditure for the duration of the Scheme.

The cash inflows to RFM from the performance of the ongoing management and maintenance services for the member are predominantly received within thirteen months of the expenditure being incurred.

ARSN 117 859 391

Notes to the Financial Statements

30 June 2019

2 Summary of significant accounting policies

Basis of preparation

The accounting policies that have been adopted in respect of the financial report are those of Rural Funds Management Limited as Responsible Entity of the Scheme.

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board, the *Corporations Act 2001* and the Scheme's Constitution. The report has been prepared on a going concern basis.

The financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board. The significant accounting policies used in the preparation and presentation of these financial statements are provided below and are consistent with prior reporting periods unless otherwise stated. The financial statements are based on historical cost. The Statement of Comprehensive Income matches harvest proceeds received during the period to the costs incurred in the period consistent with the basis on which Growers are invoiced.

Comparative amounts

Comparative amounts have not been restated unless otherwise noted.

Revenue

The Scheme previously recognised revenue when the amount of the revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the entity and specific criteria relating to the type of revenue as noted below, have been satisfied.

Under AASB 15 *Revenue from Contracts with Customers*, revenue from the sale of goods is recognised when control of goods is transferred to a customer.

Interest revenue is recognised in the Statement of Comprehensive Income as it accrues, on an effective interest rate basis.

Revenue from the sale of agricultural produce is recognised at the fair value of the consideration received or receivable to the extent that it is probable that the economic benefits will flow to the entity.

Income tax

All Scheme assets and any income of the Scheme is held on behalf of either the Growers or the Responsible Entity. The Scheme does not derive any income on its own account and accordingly is not subject to income tax.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised inclusive of the amount of GST. Growers registered for GST are able to claim input tax credits from the ATO based on the annual invoice. Receivables and payables in the Statement of Financial Position are shown inclusive of GST.

Cash flows are presented in the Statement of Cash Flows on a gross basis.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

RFM Almond Fund 2006

ARSN 117 859 391

Notes to the Financial Statements

30 June 2019

2 Summary of significant accounting policies (continued)

Trade and other receivables

Trade receivables are recognised and carried at original amount, less an allowance for expected credit loss. An estimate for doubtful debts is made when collection of an amount is no longer probable. Financial difficulties of the debtor, default payments or debts more than 180 days overdue are considered objective evidence of impairment.

For trade receivables, impairment provisions are recorded in a separate allowance account with the loss being recognised in profit or loss. Subsequent recoveries of amounts previously written off are credited against other income in profit or loss.

Impairment of assets

At each reporting date, the Scheme reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the Statement of Comprehensive Income.

Inventories

Agricultural produce

Agricultural produce on hand at year end is valued at the lower of cost and net realisable value. Prior to acquisition of inventory, in accordance with the AASB 141 *Agriculture*, cost is measured at fair value less point of sale costs at the time of harvest.

Inventories include almonds on hand, both delivered to the processor and undelivered at balance date, as the transfer of ownership of the almonds to the customer does not occur until they are paid for. Inventories at balance date have a corresponding liability included in creditors to reflect the amounts that will be offset by costs to be billed to, or amounts owing to, Growers.

Financial instruments

Financial instruments are recognised initially using trade date accounting, i.e. on the date that the Scheme becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

Financial assets

Financial assets are divided into the following categories which are described in detail below:

- financial assets at amortised cost; and
- financial assets at fair value through profit or loss.

Financial assets are assigned to the different categories on initial recognition, depending on the characteristics of the instrument and its purpose. A financial instrument's category is relevant to the way it is measured and whether any resulting income and expenses are recognised in profit or loss or in other comprehensive income.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

RFM Almond Fund 2006

ARSN 117 859 391

Notes to the Financial Statements

30 June 2019

2 Summary of significant accounting policies (continued)

Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred from the lessor, are classified as finance leases.

Lease payments for operating leases, where substantially all of the risks and benefits have not been transferred from the lessor, are charged as expenses on a straight-line basis over the life of the lease term.

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease term.

Trade and other payables

Liabilities for creditors are carried at amortised cost, which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Scheme.

New accounting standards and interpretations

A number of new or amended standards became applicable for the current reporting period, and the Scheme had to change its accounting policies:

- AASB 9 *Financial Instruments*, and
- AASB 15 *Revenue from Contracts with Customers*.

The adoption of AASB 9 and AASB 15 and other standards did not have any impact on the Scheme's accounting policies and did not require retrospective adjustments.

Standard Name	Effective date for the Scheme	Requirements	Impact
AASB 16 <i>Leases</i>	1 July 2019	Introduces a single lease accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months.	Management is currently assessing the impact of the new rules. It is expected that this standard will have a significant impact on the property leases of the Scheme. Total future lease payments under non-cancellable operating leases of land, buildings, improvements, bearer plants and plant and equipment amount to \$11,997,514.

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods.

ARSN 117 859 391

Notes to the Financial Statements

30 June 2019

3 Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements, estimates and assumptions in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods.

Management has identified the following critical accounting policies for which significant judgements, estimates or assumptions are made:

Net realisable value of inventory

The price forecast for the 2019 harvest proceeds is based on Almondco Australia Limited's (Almondco) almond value calculation advice which takes into consideration the trend of demand and supply, performance from other major almond producers as well as foreign currency fluctuation.

4 Revenue

	2019	2018
	\$	\$
Harvest proceeds	3,784,817	5,226,803
Total	3,784,817	5,226,803

5 Remuneration of auditors

During the year, the following fees were paid or payable for services provided by the auditor of the Scheme.

	2019	2018
	\$	\$
PricewaterhouseCoopers Australia:		
Audit and review of the financial report	16,026	16,520
Compliance audit	4,557	3,234
Total	20,583	19,754

6 Cash and cash equivalents

	2019	2018
	\$	\$
Cash at bank	18,582	16,985
Total cash	18,582	16,985

Reconciliation of cash

Cash and cash equivalents reported in the Statement of Cash Flows are reconciled to the equivalent items in the Statement of Financial Position as follows:

Cash and cash equivalents	18,582	16,985
---------------------------	--------	--------

7 Trade and other receivables

	2019	2018
	\$	\$
Trade and other receivables	500,756	314,395
Total	500,756	314,395

8 Inventories

	2019	2018
	\$	\$
Agricultural produce		
Almonds on hand and at processor	4,735,305	3,599,840
Total	4,735,305	3,599,840

Agricultural produce inventory represents almonds which have been harvested but not yet sold.

Inventory cost at the point of harvest is based on the expected sale proceeds less costs to sell. Almonds are generally harvested in the first four months of the calendar year. The Scheme receives instalment payments of the proceeds and therefore the final sale price will not be known until the final instalment is received, which for the current harvest is due in June 2020. The forecast sale price is \$8.00 per kilogram (2018 actual: \$7.29 per kilogram).

Inventory comprises almonds which have been processed. Harvest proceeds for the 2019 almond crop are received into the Scheme bank account from July 2019.

9 Financial assets

	2019	2018
	\$	\$
Investment - Almondco	2,100	2,100
Total	2,100	2,100

10 Trade and other payables

	2018	2018
	\$	\$
Payable to Growers	2,969,495	2,997,955
Accrual	463,528	171,302
Interest payable to RFM Farming	86,004	-
Total	3,519,027	3,169,257

11 Borrowings

	2019	2018
	\$	\$
RFM	1,737,716	764,063
Total	1,737,716	764,063

During the year ended 30 June 2019, RFM provided funding to the Scheme to assist the Scheme in meeting the ongoing costs of orchard maintenance and operational management. Interest on the funding is charged to the Scheme according to the interest rate specified in the PDS of BBSW + 4%.

Notes to the Financial Statements

30 June 2019

12 Financial risk management

Financial instruments of the Scheme comprise cash and cash equivalents, distribution payable to Growers, and other financial instruments such as trade debtors and creditors, which arise directly from its operations. The Responsible Entity is responsible for identifying and controlling the risks that arise from these financial instruments.

The risks are measured using a method that reflects the expected impact on the cash surplus attributable to Growers and distribution payable to Growers of the Scheme from reasonably possible changes in the relevant risk variables. Information about these risk exposures at the reporting date, measured on this basis, is disclosed below.

This information is prepared and reported to relevant parties within the Responsible Entity on a regular basis as deemed appropriate, ultimately to the Board of Directors of the Responsible Entity.

Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty. In order to avoid excessive concentrations of risk, the Scheme monitors its exposure to ensure concentrations of risk remain within acceptable levels.

Credit risk

Credit risk represents the risk that the counterparty to the financial instrument will fail to discharge an obligation and cause the Scheme to incur a financial loss.

Regarding credit risk arising from the financial assets of the Scheme, the Scheme's exposure to credit risk arises from default of the counterparty, with the current exposure equal to the carrying amount of these instruments as disclosed in the Statement of Financial Position. This does not represent the maximum risk exposure that could arise in the future as a result of changes in values, but best represents the current maximum exposure at the reporting date.

Credit risk is not considered to be significant to the Scheme because any default by a Grower on their contributions results in a corresponding reduction in the payable to RFM for management fees, licence fees and interest.

The Scheme sells its almonds through Almondco, an almond processing and marketing cooperative. The Responsible Entity retains ownership of the almonds until payment is received for their sale. Credit risk from this counterparty is assessed as low.

Liquidity risk

Liquidity risk is the risk that the Scheme will encounter difficulty in meeting obligations associated with financial liabilities. This risk is controlled as the Scheme maintains sufficient cash and cash equivalents to meet normal operating requirements.

Under the terms of its Constitution, the Scheme has the ability to manage liquidity risk by delaying distributions to Growers, if necessary, until the funds are available to pay them.

Financial liabilities of the Scheme comprise trade and other payables, and net assets attributable to Growers. Trade and other payables are on terms that correspond with Grower contributions receivable thus limiting liquidity risk. Net assets attributable to Growers are payable when distributable profit meets the criteria for distribution according to the Scheme's Constitution.

RFM Almond Fund 2006

ARSN 117 859 391

Notes to the Financial Statements

30 June 2019

12 Financial risk management (continued)

Market risk

Market risk is the risk that the fair value or future cash flows of financial assets will fluctuate due to changes in market variables such as interest rates. The effects of a \$0.50/kg change in the price of almonds on unrealised harvest proceeds are shown in the following table. Any effect in the unrealised

harvest proceeds would affect the net payable or receivable from the grower following payment of next year's growing costs.

	2019	2019	2018	2018
	Per grove	Total	Per grove	Total
	\$	\$	\$	\$
Increase of \$0.50/kg	396	315,967	326	259,607
Decrease of \$0.50/kg	(396)	(315,967)	(326)	(259,607)

Fair values

The Scheme's financial assets and liabilities included in the Statement of Financial Position are carried at their fair value or at amounts that approximate their fair values.

13 Key management personnel

Directors

The Directors of RFM are considered to be key management personnel of the Scheme. The Directors of the Responsible Entity in office during the year and up to the date of the report are:

Guy Paynter
David Bryant
Michael Carroll
Julian Widdup

Other key management personnel

In addition to the Directors noted above, RFM as the Responsible Entity of the Scheme is considered to be key management personnel with the authority for the strategic direction and management of the Scheme.

The constitution of the Scheme states that RFM is entitled to \$249.66 (2018: \$243.57) per grove as a management fee. In addition, where RFM or its agent has borrowed funds to meet the interim costs and expenses of providing management services, RFM is entitled to charge interest on the rate specified in the PDS, which is BBSW + 4%.

The agreement terminates on 30 June 2026.

Compensation of key management personnel

No amount is paid by the Scheme directly to the Directors of the Responsible Entity. Consequently, no compensation as defined in AASB 124 *Related Party Disclosures* is paid by the Scheme to the Directors as key management personnel.

14 Minimum lease payments

Minimum lease payments under non-cancellable operating leases of land, buildings, improvements, bearer plants and plant and equipment not recognised in the financial statements, are payable as follows:

	2019	2018
	\$	\$
Within one year	1,717,284	1,657,155
Later than one year, but not later than five years	6,840,258	6,529,932
Later than five years	3,439,972	4,895,520
Total	11,997,514	13,082,607

15 Related party transactions

Transactions between the Scheme and related parties are on commercial terms and conditions.

Responsible Entity (RFM) and related entities

The farm manager's fees are based on the farm operating costs incurred by the Responsible Entity plus property licence fees, and management fees prescribed by the Scheme PDS during the year ended 30 June 2019. These fees are based on 797 almond Groves.

Transactions between the Scheme and the Responsible Entity and its associated entities as shown below:

	2019	2018
	\$	\$
Management fee	198,975	97,061
Total management fees	198,975	97,061
Expenses reimbursed to RFM	3,225,918	3,109,955
Licence fee paid to Rural Funds Group	1,382,777	1,322,143
Rent paid to RF Active	391,392	328,010
Interest payable to RFM Farming	86,004	-

16 Cash flow information

	2019	2018
	\$	\$
Net profit for the year	-	-
Changes in assets and liabilities		
(Increase) in trade and other receivables	(186,361)	(239,999)
(Increase)/decrease in inventories	(1,135,465)	1,312,284
(Decrease) in trade and other payables	(264,613)	(1,331,884)
Net cash (outflow) from operating activities	(1,586,439)	(259,599)

17 Events after the reporting date

Following the year end, based on changes in the market, the latest estimated sales price of almonds as provided by Almondco is \$8.10/kg. The price increase has not been taken to account as the movement represents the fair value movement in the market value of almonds since 30 June 2019. The final sales proceeds are subject to change based on market conditions throughout the next year and will not be known until 30 June 2020.

Meetings for the AF06, RFM Almond Fund 2007 and RFM Almond Fund 2008 (Schemes) were held on 28 August 2019 to consider the proposed merger of the Schemes as detailed in the Notice of Meeting dated 25 July 2019. During the meeting held on 28 August 2019, the proposals were passed by Growers in each of the Schemes, and the merged entity was renamed the RFM Almond Fund (RAF).

An invoice was issued to Growers on 30 August 2019 for the 2019 financial year shortfall and the 2020 financial year pre-merger shortfall. As a result of the merger, no payment was deemed required for this invoice and the liability was transferred to and funded by RAF.

No other matter or circumstance has arisen since the end of the year that has significantly affected or could significantly affect the operations of the Scheme, the results of those operations or the state of affairs of the Scheme in future financial years.

Directors' Declaration

30 June 2019

In the Directors of the Responsible Entity's opinion:

- 1 The financial statements and notes of RFM Almond Fund 2006 set out on pages 9 to 22 are in accordance with the *Corporations Act 2001*, including:
 - (a) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (b) giving a true and fair view of the Scheme's financial position as at 30 June 2019 and of its performance for the year ended on that date; and
- 2 There are reasonable grounds to believe that the Scheme will be able to pay its debts as and when they become due and payable.

Note 2 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the Board of the Directors of Rural Funds Management Limited.

David Bryant
Director

24 September 2019

Independent auditor's report

To the Growers of RFM Almond Fund 2006

Our opinion

In our opinion:

The accompanying financial report of RFM Almond Fund 2006 (the Registered Scheme) is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Registered Scheme's financial position as at 30 June 2019 and of its financial performance for the year then ended
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

What we have audited

The financial report comprises:

- the statement of financial position as at 30 June 2019
- the statement of comprehensive income for the year then ended
- the statement of changes in net assets attributable to Growers for the year then ended
- the statement of cash flows for the year then ended
- the notes to the financial statements, which include a summary of significant accounting policies
- the directors' declaration.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Registered Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Other information

The directors of the Responsible Entity are responsible for the other information. The other information comprises the information included in the Financial Statements for the year ended 30 June 2019, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

T: +61 2 9659 2476, F: +61 2 8266 9999, www.pwc.com.au

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors of the Responsible Entity for the financial report

The directors of the Responsible Entity of the Registered Scheme are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors of the Responsible Entity determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors of the Responsible Entity are responsible for assessing the ability of the Registered Scheme to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Responsible Entity either intends to liquidate the Registered Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf. This description forms part of our auditor's report.
